

*Harts Creek Streamcare Group and the Sustainable Drain Management Team
invite you to a*

Celebration of 10 years of streamcare on Harts Creek and tributaries

Tuesday June 19th
10am – 1pm

Meet at Leeston Community
Room (Leeston Library)
19 Messines St, Leeston

Join us on a short field trip to find out more about improving our streams and drains. See what's been achieved and hear from the people who have been involved in stream and drain restoration, undertaking riparian planting on their properties.

Information will be available on sustainable management of waterways, where to get advice and funding, and what the new Environment Canterbury stock exclusion rules mean for landowners.

A light lunch will be provided at the Community Room after the bus trip. The event is free, but places are limited so **registration is essential**.

To register, contact Adrienne Lomax
email: manager@wet.org.nz , phone: 03 365 3828 (ECan reception) and ask to be put through, or ring on 021 052 9720

The Sustainable Drain Management Team is led by Waihora Ellesmere Trust. Special thanks to Selwyn District Council and Environment Canterbury for their support of this field trip. Other funding support comes from Canterbury Community Trust, Sustainable Farming Fund and Community Environment Fund.
