

Te Waihora/Lake Ellesmere Wetland Bird Survey

Saturday February 11, 2017

(with Sunday February 12 as a reserve day)

Volunteers needed — must be fit and committed!

Some experience of identifying and counting wetland birds would be helpful

Volunteers will be assigned to a team — transport and some equipment will be Provided — and you will spend several hours on the lake margin counting a variety of bird species.

Don't worry if you don't know all species — each team will include at least one experienced birder.

We will also need other helpers on the day — as drivers, to do data entry, to help with catering, and more. Let us know if you would like to be involved.

For further information, and to register your interest, please contact:
